## OUR PROGRAMS

Outside The Lens' Teen programs emphasize media arts skill development, media literacy, social-emotional development, intergenerational community connections, and civic engagement.

By providing hands-on media arts experiences, our programs aim to cultivate creative pathways for teens and transitional age youth. Outside The Lens recognizes and cultivates the existing creative potential and community-focused drive in teens. We provide opportunities and resources that encourage them to share their voice and contribute to meaningful change within their communities.

Delivered by OTL Teaching Artists, our curriculum is designed to meet the following key objectives for youth:

- Creative Confidence
- Economic Mobility
- Social Impact
